

Changes Coming to Home Care

We're excited to share some important updates about the new Aged Care Act and how it will impact your home care funding.

Starting 1 July 2025, the government will introduce eight levels of home care funding. The top funding level will provide up to \$78,000 per year, offering more support to help you remain in your own home for longer. For details, please refer to the table.

Quarterly Budget: Clients will receive a quarterly budget instead of a yearly one for their care and services.

Use It or Lose It:

- You can save up to \$1,000 or 10% of your budget (whichever is higher) for the next quarter.
- Any unused funds beyond this amount will not roll over.
- Good news for existing clients: If you have accumulated funding by 30 June 2025, it will transfer to the new system.

We understand these changes can be complex, and not all the details have been finalised yet. To help you through this transition, we will host forums and webinars to explain the changes in detail; provide regular updates through our newsletters and 2CR Chinese radio program; and have our dedicated Care Advisors to guide you when more information is announced.
